## PROMOTING HAMBURG'S FUTURE

The Hamburgische Investitions- und Förderbank (IFB Hamburg) has been the central development institution of the Free and Hanseatic city of Hamburg since 1 August 2013. Its predecessor, the Hamburgische Wohnungsbaukreditanstalt (Hamburg Residential Construction Credit Institute) had been established as a public-law institution with a full banking licence on 1 April 1953. Where before the emphasis was on the housing promotion sector, activities now also include business development, promotion of innovation and environmental protection. IFB provides support with loans and grants. IFB Innovationsstarter GmbH as a subsidiary company invests in start-ups.

The Free and Hanseatic city of Hamburg is a 100 % shareholder. IFB Hamburg has a balance sheet total of around 5 billion euros and equity of 800 million euros. It is a member of the Compensation Scheme and Deposit Protection Fund of the Association of German Public Banks.

## YOUR PARTNER FOR PUBLIC FUNDING

IFB Hamburg is the central point of contact for private individuals, companies and institutions for all funding queries. It advises on funding offers from the Senate of Hamburg, the federal government and the EU.

IFB Hamburg supports the Free and Hanseatic city with structural and economic policy, social policy and with the fulfilment of public tasks. It cooperates with banks, chambers and associations in Hamburg.

IFB Hamburg provides funding and financial offers as well as free advice in four fields of service. This reinforces Hamburg as a business location.
